Nouryon Pulp and Performance Chemicals AB
Kromasil

Nouryon

Gothenburg, January 2023

Dear customer,

Subject: Kromasil portfolio changes

Nouryon has reviewed its Kromasil column portfolio and concluded that the AmyCoat and CelluCoat Chiral column range will be phased out. Material is still available on stock and these items will be offered as before until the inventory is sold-out.

Available columns will be open to order via the web portal as long as there is remaining inventory.

Don't hesitate to reach out to your account manager or customer service representative for support or questions on availability.

Thanks for your understanding!

Yours Sincerely,

Anders Hägg
Segment Manager Pharma
